

Sorting Attachments

Most of us sort Attachments by Attachment Type, however did you know that you have other choices? Just click **Sort by** to see all the options.

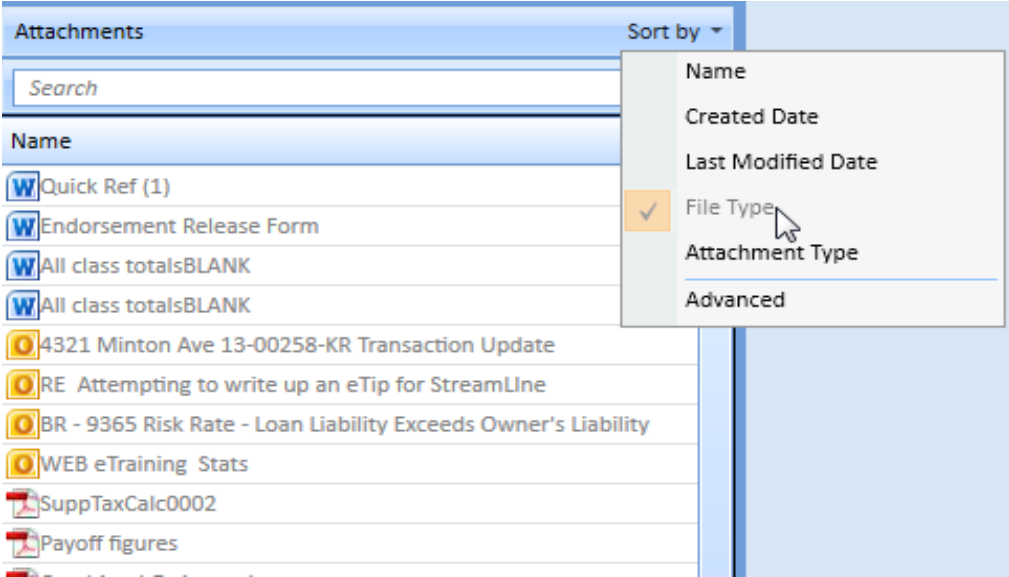

Attachments sorted by Attachment Type

A great way to view all the attachments in a folder, regardless of their attachments type, is to sort by **Name**. This sorts all the attachments alphabetically.

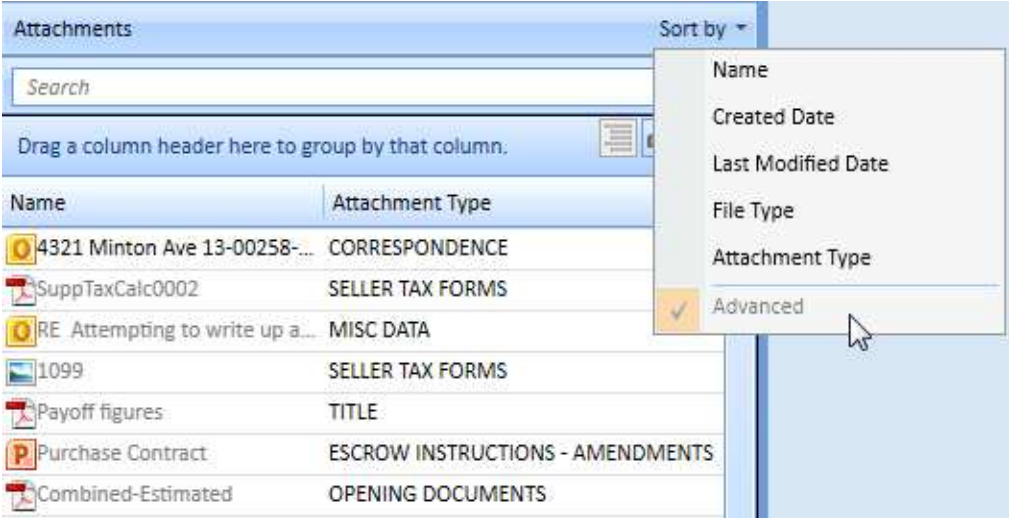

Attachments sorted by Name

Sorting by File Type will group all the attachments by the type of document or file. For example, this can make it easier to see all the Emails in a folder.

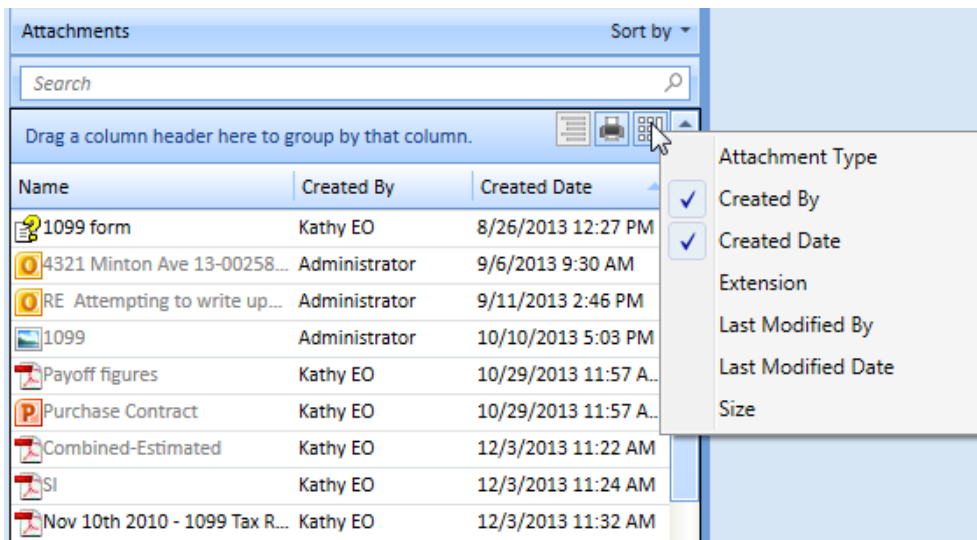

Attachments sorted by File Type

Try Advanced to see the name of the document with additional columns as needed. For example, when multiple people are working on the same file, keeping track of things can be a challenge.

Attachments sorted by Advanced

Select the Columns button to add more information like Created Date and Created By to easily see who added attachments, and when.

Attachments sorted by Advanced – with Created By and Created Date column
